Albert Einstein - Wikipedia
Twentieth Century - The Born-Einstein Letters. Correspondence between Albert Einstein and Max and Hedwig Born from 1916 to 1955 with commentaries by Max Born. Trans. by Irene Born. Foreword by Bertrand Russell.

The Born-Einstein Letters 1916-55 by Max Born

Albert Einstein (1879-1955) was one of the greatest physicists of all time. Born in Germany, he was a German citizen until 1933, when he fled the Nazis, and he became a U.S. citizen in 1940. Einstein was a leading figure of the early 20th century physics revolution and a pioneer of the theory of relativity. His work on the photoelectric effect won him the 1921 Nobel Prize in Physics, and his work on mass-energy equivalence, E=mc², laid the groundwork for quantum theory.

The Born-Einstein Letters 1916-55 | Open Library
Albert Einstein was born in 1879, the son of a bookbinder in the German town of Ulm. His family moved to Munich, where Einstein's father and his uncle Jakob founded Electrotechnische Fabrik J. Einstein & Co., which produced electrical equipment based on direct current.

Max Born - Wikipedia

If you enjoyHistory, you may enjoy the history of Albert Einstein and his impact on 20th-century physics. Einstein's work on the photoelectric effect won him the 1921 Nobel Prize in Physics, and his work on mass-energy equivalence, E=mc², laid the groundwork for quantum theory. Einstein's development of the theory of relativity revolutionized our understanding of space and time, and his work on the equivalence of mass and energy led to the development of nuclear energy. Einstein's impact on 20th-century physics is immeasurable, and his legacy continues to influence scientists and philosophers today.

The Born-Einstein Letters 1916-55 by Max Born

The "Born-Einstein Letters" themselves are numbered for easy reference. The first letter is dated (Feb. 27, 1916) while the last is dated (Jan. 29, 1955). There are commentaries, explanations, and autobiographical remarks by Born accompanying almost every letter.

The Born-Einstein Letters 1916-55 by Max Born

Albert Einstein expresses doubt about God, the Bible and quantum theory. Einstein's correspondence with his friend and mentor Max Born and his wife Hedwig was a rich source of insight into his private life and thoughts. This edition includes letters written in a variety of languages, including German, English, and French, and provides translations and commentaries by Max Born.

The Born-Einstein Letters 1916-55 by Max Born

The Born-Einstein Letters 1916-55 by Max Born is a collection of letters written between Albert Einstein and his friend Max Born, spanning 40 years. The letters provide insight into Einstein's personal life, including his thoughts on religion, politics, and science. The correspondence also includes a variety of topics such as the development of the theory of relativity, the development of quantum theory, and Einstein's involvement in social and political issues.
